The measurement report is expected to be received by 28.01.25. The same shall be provided to all those who participated in the pre-tender meet and also shall be uploaded on Savana website. **Final date of bid submission has been extended up to 31.01.25, 17:00 hrs.**

In the meantime all bidders are requested to depute their teams at Savana and get the measurements done at their ends to assess the workload and submit competitive offers. The Bidders should not wait for SWA's measurement report. No further extension shall be provided for whatsoever reasons.
